

Trees For Life

Trees For Life is a not for profit environmental organisation which revegetates cleared land and conserves native vegetation.

Since 1981 we have grown 29 million native seedlings for rural land and direct seeded 1300 hectares including 625 hectares for carbon sequestration.

Trees For Life enables individuals and companies to take direct action to protect the environment for a sustainable future.

This is to certify that

Pangolin Associates

BRONZE ENVIRONMENTAL SUPPORTER

From 2011 to 2012

***Has donated 137
Trees For Carbon.
These trees help beautifying
the landscape, reducing
erosion and salinity;
absorb carbon and provide
vital habitat and shelter
for wildlife***
